DETAILED ACTION***Continued Examination Under 37 CFR 1.114***

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 24 August 2005 has been entered.

Claim Rejections - 35 USC § 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-10 are rejected under 35 U.S.C. 103(a) as being obvious over PCT patent publication WO 00/03328 in view of Meyer et al. (US006915271B1).
4. WO 00/03328 teaches (independent claims 1, 6 and 7) a method, system and apparatus for providing electronic coupons, the method comprising: determining, at a user device, information identifying a user (the user's name, p. 6 lines 11-12 and Fig. 3); determining, at a processor (*computer 138*), a profile of the user (*demographic data concerning the user*) based on the information identifying the user (p. 6 lines 23-26 and p. 10 lines 1-7); selecting, at the processor, at least one electronic coupon based on the determined profile of the user (p. 10 lines 7-9); and displaying a redeemable representation of the at least one electronic coupon on the user device (p. 5 liner 35 to p. 6 line 1).
5. WO 00/03328 does not teach that the profile includes a history of web-based content viewed by the user. Meyer et al. teaches that the profile includes a history of web-based content viewed by the user (col. 1 lines 19-27 and 54-58). Because Meyer et al. teaches that electronic shopping on the Internet is popular (col. 2 line 8) and that the use of incentives can be optimized by taking more factors into consideration (col. 1 lines 40-44), it would have

Art Unit: 3622

been obvious to one of ordinary skill in the art, at the time of the invention, to add the teachings of Meyer et al. to those of WO 00/03328.

6. WO 00/03328 also teaches claim 8 at the citations given above. WO 00/03328 also teaches claim 2 (p. 9 lines 1-22), and claims 5, 9 and 10 (p. 6 lines 32-36 and p. 8 lines 36-37).
7. Meyer et al. teaches claims 3 and 4 (col. 6 lines 44-65).
